# ORION MINI APPS

# MINI APPS BENEFITS

ORION Mini Apps are intended to facilitate the brokers in their loan processing task by interacting directly with the customers to gather mandatory information. These Apps are user-friendly, and responsive on all screen sizes.

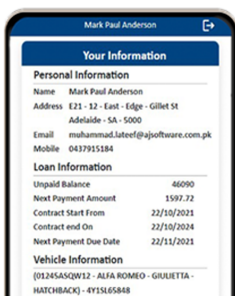

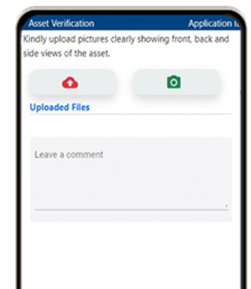

**eSign App** allows customer to digitally sign documents (Privacy Documents, Credit Guide, etc.) sent via email.

**eDocs App** allows customer to directly upload documents into ORION Application.

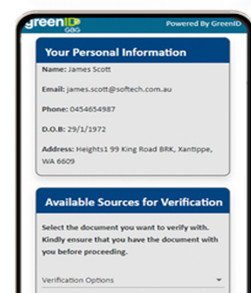

**Referral App** allows customer to submit their loan application request into ORION Application.

**Asset Verify App** allows dealer to upload asset images into the ORION Application.

**Customer Portal App** allows customers to view loan status and other information related to their loan.

**Identity Verification App** allows customer to verify their identity via GREEN ID service.
